

[1/2] store i32 %add, i32\* %arrayidx4, align 4

The diagram consists of a large rectangular frame containing two red, horizontally-oriented oval nodes. The top node is larger and contains the text "[1/2] store i32 %add, i32\* %arrayidx4, align 4". The bottom node is smaller and contains the text "[0/3] %2 = load i32, i32\* %arrayidx, align 4". A black arrow points from the bottom node up to the top node, indicating a data flow from the load operation to the store operation.

[0/3] %2 = load i32, i32\* %arrayidx, align 4
